ONYX FMCG

ONYX FMCG

Onyx Trading FMCG is a South African based company, which officially distributes Grit, ACE, RITE, Cricket Lighters and Three Star Matches products in South Africa.

We predominantly supply to retailers and wholesalers, however, all our pouch products are available for sale direct to the public in the store on this website.

We have identified a clear gap in the Southern African market for quality lighters matches and pouch products.

We offer sexy, modern up-to-date, top quality products to supply the Southern African market.

We have experience in worldwide sales & marketing of our top quality imported European brands.

Onyxtrading.co.za is the online information and shopping portal for Onyx Trading FMCG.

Three Stars has mainly been an export brand since 1887. The number three, which can be a lucky number or have spiritual, philosophical or biblical significance, was often used on matchbox labels in the 1800s. The word and the symbol of a star are traditionally associated with quality. Three Stars is probably the most famous brand of matches in the world.

The number three was commonly used in 19th century match trademarks, signifying luck or even spiritual, philosophical, or biblical relevance. The word star and the star symbol are traditionally associated with top quality.

Cricket

All Cricket lighters are designed to be intuitive, comfortable and feel easy to use. You can choose pocket- or utility lighters from different sizes and models in a wide range of colours and finishes.

Today we are rethinking the way we make fire. In 2017 we created the first and only lighter made from 100% recyclable plastics. We've been pushing boundaries by picking up the spirit of the time since day one and will continue doing so.

Today our priority is to drive innovation on how to reduce our climate impact. With sharp focus on producing, high quality lighters with impeccable safety and reliability.

QUALITY

Fully automated production and thorough quality and safety control with every lighter undergoing more than 60 checks prior to being released on the market.

SAFETY

All Cricket lighters are child resistant and manufactured with self-extinguishing nylon, an extremely tough material which cannot burn when the ignition source is removed.

RELIABILITY

Fixed flame technology is a proprietary patented system where the flame is fixed and creates a uniform and reliable flame during the entire lifetime of the product.

RITE[®]

WHITE

With RITE, Ministry of Snus brings a more traditional tobacco-based Snus in a range of strengths, flavors, and pouch sizes.

Rite Slim comes in white portions with a slimmer pouch, offering something more discrete and easier to hold in the mouth.

Choose between Cool Mint for a fresh breezy feeling, Juniper Citrus for that fruity tang flavor, or Nordic Dry Slim if you want some real strength and a powerful nicotine boost.

PRODUCT SKU'S
